

600T.PLUS

Portable Walk Through Metal Detector

600T.PLUS Portable walk through metal detector adopt advanced techniques ,with a number of patents and certificates on material, the appearance, technology and structure .

It is a lightweight ,high-performance walk through scanner with high sensitivity ,portable,waterproof ect features,One operator can transport it easily to any locations and finish installation within 5mins , Ideal for security checks at stadiums, conferences, schools and other events. The unit is easy to operate and settings are self explaining. .

The gate adopt an electromagnetic field to detect metal objects through sound & light alarm. The gate consist of the host , the high-frequency signal generator, signal receiver , infrared sensors and other components , with super metal detection function, the unique internet remote control management system, and can be taken apart to 8 components, It is easy for you to carry and transport .

Advanced Technology

- Multi-zone technology: 8,16,24 detection zones,can change detection zones intelligently (upgrade technology of each zone can be provided).
- Touch screen: 7-inch HDMI LCD touch screen,iPad interface style,easy to operate and understand.
- Mobile connection technology: realize mobile APP remote control
- IP Grade: IP67 superior waterproof performance
- Self calibration once power on
- Self diagnostic, it will inform the user when exit the system
- Start-stop technology:infrared devices with automatic start-stop technology.

Portable and easy carry

Silver gray

Camouflage

Three colors to choose

Features and Functions

- Adjustable sensitivity of each detection zone
- Multi-alarm sounds to choose
- Operating frequency can be adjusted manually or automatically
- Move after folded or installation(two move methods to choose)
- Detection technology: Even detection technology,no blind spot
- Internet technology:Remote upgrade system and remote control system
- Working band: 120 working bands
- Sensitivity of each detection zone:355 level
- Statistics: Record the pass and alarm numbers
- Query function: The system has real-time information query function
- Intelligent Standby: The system has intelligent standby operation alerts
- Detection speed: more than 60 people pass and detect in 1 minute

7-inch LCD touch screen
easy and simple operation

Technical Parameters

- Detection objects: knives,guns,coins
- Passage Dimension: 2051x710x500mm
- Packing Dimension: 948x666x525mm
- Working environment: -40 ℃~85 ℃
- Input : AC 110V~240V/50Hz~60Hz
- Power supply: the whole system is equipped with polymer battery,life time 8,16,24,48,72 hours optional.
- External Dimension:2250x850x500mm
- Fold Dimension:889x606x484mm
- Humidity: 99%, non-condensing
- Weight: NW 42KG, GW 50KG
- Output : DC 12V/5A 12W

Optional functions

In order to meet different customers requirements the device can be equipped with some optional functionality, for instance a body temperature detector, video intercom, internal CCTV and recording, face recognition etc. Additional features on request.

● body temperature detector

● video intercom

● internal CCTV and recording

● face recognition

SPECIAL FEATURES

- **High/Low temperature Resistance**

Able to work at -40°C~ 85°C.

- **Waterproof**

The new deep sea waterproof technology,

- **Wireless connection**

Control the walk through metal detectors anytime and anywhere. Through WiFi, 4G data, Bluetooth,access the wireless Internet, via mobile phone APP, PC to realize remote control and data monitoring.

- **Long time power supply**

Lithium battery,the whole system is equipped with polymer battery,life time 8,16,24,48,72 hours (optional).
